

Programme's mission & objectives:

The Post Graduate Programme in English at NSOU is in keeping with the spirit of English Literature Curricula most Conventional and Open University English Departments across India. The mission is to offer a significantly specialised approach to the learning of English literature -- introducing learners to important canonical texts, theories and socio-cultural backgrounds to which they may have been introduced in the undergraduate English Literature course. The objectives are in keeping with this mission, that is to instil interest in the learner and take him through the ages of literary history via their landmark authors and their texts.

Expected Learning Outcome:

The course is traditional and prepares learners of the University to step out in the competitive job-market, at par with students who take the course from Conventional University departments. The students at this University are rather better trained to equip themselves with modes of ICT, through using online student support services, audio-visual lectures above the use of printed SLMs, and thus in every way ready to face the challenges of the twenty-first century scenario.
